

Nicola Plain

CEO Aktionariat AG

Nicola Plain graduated from the University of St. Gallen (HSG) with a Master's degree in Business Innovation and obtained a CAIA Level II certificate a few years later. He worked for five years as a business engineer and project manager in the automotive industry with his small consulting company. Disillusioned by the resistance of large companies to change, he decided to work only in very agile and flexible environments in the future. On 01.02.2021 he joined Aktionariat AG, a company that takes advantage of the new Swiss DLT law to allow companies to create a marketplace for their shares on their own website.
