

Pierre-Yves Moix

CIO Systematic Strategies at LGT Capital Partners Ltd

Pierre-Yves Moix is the CIO Systematic Strategies at LGT Capital Partners Ltd. Before joining the firm in 2018, Mr Moix was a Portfolio Manager and Head of Research in the GAM Systematic Alternative Risk Premia team. He joined GAM in 2014 with the Alternative Beta Partners team, where he served as co-CEO and CIO. Prior to that, he was Chief Risk Officer at Man Investments, a management member of Man Multi Manager and a management member of RMF Investment Management. Mr Moix initially joined RMF in 2000 as a quantitative analyst and was responsible for the set-up and management of the quantitative analysis team, followed by the building and leading RMF's risk management unit. Mr Moix holds a PhD in Economics from the University of St. Gallen (HSG), and holds a Master's degree in Statistics from the University of Neuchâtel. He is a CFA charterholder, a Financial Risk Manager (FRM) and the author of a well-respected book on measuring market risk.
